

Indispensable **or** unsustainable?

We all use petrochemicals everyday. Derived from crude oil and natural gas, these compounds and their by-products are vital to our economy and wellbeing.

This industry is responsible for giving us:

// **plastics** // **fuels** // **synthetic fibres**
// **adhesives** // **aircraft components**
// **the list is endless...**

Industry needs motivated problem solvers with a passion for chemistry to advance research into petrochemicals and develop new and improved compounds for a variety of uses.

If you're looking for a challenge and want to use your chemical science skills within a multidisciplinary team, this may be the career path for you.

Fulfil your potential
Aim for a career in the
chemical sciences
